Product Category Performance

Set & Kurta drive 86.4% of total revenue

Platform avg: 5–8% | These categories exceed it significantly

Cancellation Rate by Category

Saree	14.69%
Kurta	14.66%
Set	14.60%
Ethnic Dress	12.49%
Top	12.13%
Western Dress	13.76%

Revenue by State — Tier Classification

Top 5 states drive 55% of total revenue

TOP TIER

Maharashtra, Karnataka,
Uttar Pradesh, Telangana,
Tamil Nadu

MID TIER

Andhra Pradesh, Delhi,
Kerala, West Bengal,
Gujarat, Rajasthan

LOW TIER

Remaining states —
minimise marketing
burn in these markets

Fulfilment & Shipping Breakdown

Amazon-fulfilled orders command higher revenue share

Fulfilment Type

Amazon Fulfilled Merchant Fulfilled Other

Shipping Mode

Expedited Standard

Dimension	Segment	Orders	Revenue
Fulfilment	Amazon Fulfilled	84,002 (65.1%)	₹5.09 Cr (69.3%)
Fulfilment	Merchant Fulfilled	36,376 (28.2%)	₹2.25 Cr (30.7%)

Order Status & B2B vs B2C Split

13.32% cancellation rate — above industry benchmark of 5–8%

Order Status Distribution

B2B vs B2C

17,185 orders lost

Revenue at risk: ~₹1 Cr+

COD-driven impulse

Buyers cancel with no commitment cost

B2B only 0.62%

Untapped bulk revenue opportunity

Business Problems Identified

6 critical problems uncovered — each tied to a SQL query and recommendation

P1 High Cancellation Rate

₹1 Cr+ revenue at risk

SQL: Q10, Q15

P2 Revenue Declining MoM

-18.8% in just 2 months

SQL: Q12, Q17

P3 No Geographic Strategy

Resources spread too thin

SQL: Q8, Q16

P4 Merchant Fulfilment Gap

Lower AOV on merchant orders

SQL: Q14

P5 Wrong Category Assumptions

Kurta over-invested, Set under-invested

SQL: Q9, Q17

P6 B2B Segment Invisible

Untapped bulk revenue

SQL: Q6

Actionable Business Recommendations

Data-backed actions to recover revenue and unlock growth

Reduce Cancellations

- Improve product photography & size guides
- Introduce Try-Before-You-Buy for Sets
- Analyse COD vs prepaid cancellation split

Invest in Top-Tier States

- Double down on Maharashtra & Karnataka
- Same-day delivery pilots in Mumbai, Bengaluru
- Exclusive launches for Hyderabad & Chennai

Migrate to Amazon FBA

- Higher AOV proven through FBA orders
- Build case to migrate high-value merchants
- Tie fulfilment quality to seller incentives

Expand B2B Channel

- Launch dedicated B2B portal or programme
- Bulk pricing tiers for boutique resellers
- Account managers for repeat business buyers

Prioritise 'Set' Category

- Set is #1 every month despite fewer orders
- Allocate premium ad spend to Set listings
- Exclusive launch slots & premium placement

Upsell Expedited Shipping

- 68.9% already use Expedited Shipping
- Convert remaining 31.1% via Prime promos
- Offer conditional free-expedited on AOV threshold

Advanced SQL Techniques Used

17 queries spanning aggregations, CTEs, and window functions

NTILE(3)

Query 16

Classified every state into Top / Mid / Low Tier by revenue for strategic marketing budgets

RANK() + PARTITION BY

Query 17

Identified the top-performing category for each month — 'Set' ranked #1 all three months

CTE (WITH clause)

Query 16

Modular, readable subquery structure enabling reuse in downstream reporting

CASE WHEN

Q10, Q15

Classified order statuses and computed cancellation metrics conditionally per category

GROUP BY + HAVING

Q3, Q8, Q9,
Q11

Aggregated revenue by state, category, month, and fulfilment type with filters

Subqueries

Q10, Q14

Nested queries for cancellation rate percentages and comparative fulfilment analysis

SKILLS DEMONSTRATED

Full-Stack Data Analytics Skill Set

Designed to reflect entry-to-mid level Data Analyst capabilities

SQL

90%

Aggregations, CTEs, window functions, NTILE, RANK, PARTITION BY

Power BI

85%

KPI cards, bar/line/donut charts, map visuals, slicers, drill-down

Excel

80%

Data cleaning, transformation, pivot tables

Data Analysis

88%

Trend analysis, segmentation, cancellation & fulfilment benchmarking

Business Acumen

85%

Translating raw data findings into actionable revenue impact recommendations

Conclusion

Key Takeaways from Amazon India Sales Analysis

01

₹7.34 Crore revenue base with clear category & geographic concentration

02

13.32% cancellation rate = significant revenue recovery opportunity

03

Amazon Fulfilment & Expedited Shipping are the dominant, higher-value modes

04

'Set' consistently top-performing category across all three months

05

Maharashtra & Karnataka = highest-priority states for marketing investment

06

B2B segment (0.62%) presents untapped bulk revenue opportunity
